

## SILICA SAND

Silica sand is the most commonly used product to add ballast to your artificial grass. It is recommended to add specified amount of silica sand for the best result. Shape of the silica sand we supply is oval and do not harm your turf. Also take note that the layer of sand is providing a protection from UV rays, which will mean your synthetic lawn will stay looking beautiful for a good long time.

### MATERIAL SPECIFICATIONS

**Chemical Formula**

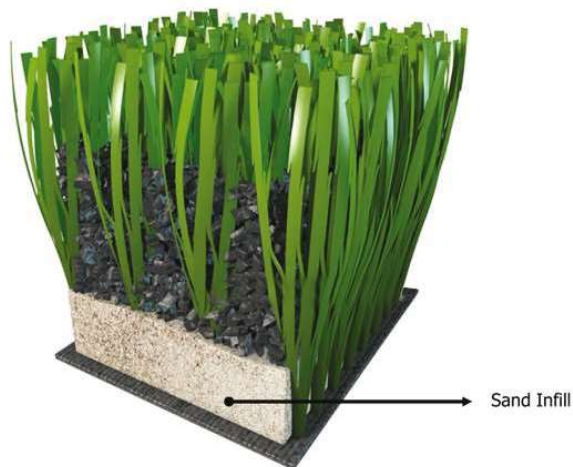

SiO<sub>2</sub>
