# MERCI

10000/14<sub>Dtex</sub>

W<sub>Shape Yarn</sub>

PE/PP<sub>Composition</sub>

UV<sub>Resistance</sub>

 Eco Friendly

Field & Lime Green  
Beige & Field Green

## MERCI

Developed based on special market demand; It grants a durable upright filament structure and is also an eye-catcher at lawn spaces. The special W- Blade shapes helps dispersing heat due to their light-diffusing quality. It diffuses the sunlight, instead of absorbing the heat like other shapes, which approaches to hot climate regions. The combination of its special features together with the dark and lime green yarns maintains an evergreen look throughout the year.
